

COLLEGE OF CRIMINAL JUSTICE

Portfolio Continuous Enrollment POLICY

Adopted by the Faculty
Spring 2009

Students signing up for either the Portfolio Expectations Initial Committee Meeting or the Portfolio Defense are required to be enrolled for at least one class in the relevant semester, including summers. Students simply working on Portfolio compilation, and employing only incidental and non-consequential University resources, are not required to be enrolled for this reason alone. Note, however, that it is regarded as use of University resources to consult routinely with Portfolio Committee members, request members to review documents, or otherwise consume non-incidental faculty time. Other University continuous enrollment requirements still apply.

This policy becomes effective as of April 1, 2009.
